

# Corn-starch Experiment

Swansea University  
Prifysgol Abertawe

IMPACT

Have some messy fun making a goey substance with cornflour and water.

Simply mix them together to create different consistencies to see how you can make a solid that is also a liquid!

Please note, children may need to be accompanied and assisted by an adult whilst undertaking this experiment. This activity is aimed towards children aged between 3 years plus.

Follow along with our online tutorial below:  
[bit.ly/CornstarchExperiment](https://bit.ly/CornstarchExperiment)

You will need:

- A bowl
- Cornflour
- Water
- Spoon
- Food colouring (optional)
